

# Advocacy Service

SIGN  
HEALTH

*A right to be heard*

**SignHealth Advocacy Service provides one to one help for Deaf people in British Sign Language.**

## BECAUSE....

- **Direct communication is vital** to ensure Deaf people fully understand proceedings and outcomes.
- **It helps address DDA requirements** by providing a one to one conversation in the client's own language.

## ALSO...

- **Our Advocates are all trained IMHAs** (Independent Mental Health Advocates).
- **Our Advocates are based throughout England and Wales** and have a solid knowledge of criminal justice, social services and health service procedures.

**SignHealth also provides a confidential BSL counselling service. Ask us for more details.**
